

January 15, 1964

Mr. J. E. Curry
Chief of Police

Subject: Dr. Herman Ulivitch
6146 Averill Way
Office: 915 St. Joseph Street
Phone: TA 3-5791

Sir:

I talked to a confidential informant and obtained the following information:

This doctor has been interviewed by the FBI and a private investigator employed by Mr. Belli.

Upon recommendation of Isidore Miller, Jack Ruby called on October 28, 1963 and made an appointment for his sister, Eva Grant, for October 29, 1963. Jack Ruby accompanied Eva Grant and waited while the examination was conducted. This examination took about two hours.

The doctor has known Jack Ruby for a number of years and has seen him several times at the YMCA.

Jack Ruby was examined by Dr. Ulivitch on November 11, 1963, for a cold and cough. The doctor prescribed 12 capsules Tussornole, (an Antihistamine and decongestant cough syrup) and 12 tablets of Terrostation (Phonetic), an Antibiotic and a drug for nervousness.

These prescriptions were filled at Walgreen Drug Store, 1321 Commerce and refilled November 15, 1963.

During the examination, Jack Ruby told the doctor that he had just come from the sheriff's office. That a "stripper" named "Jada" had accused Ruby of pandering for her. "Jada" is from New Orleans, Louisiana.

The doctor considers Ruby to be eccentric, boisterous, erratic, and impulsive. He seems very devoted to his sister, Eva Grant. The doctor stated that someone told him that Ruby usually carried several hundred dollars with him all of the time, but he did not

see a pistol on Ruby the day of the examination.

The doctor stated that he did not know Lee Harvey Oswald and does not feel bad towards Ruby for killing him. He does not believe Ruby would have to be insane to have committed this act.

The doctor stated that he had been on a hunting trip with Henry Wade shortly before the assassination of President Kennedy.

Respectfully submitted,

W. P. Gannaway
W. P. GANNAWAY, Captain
Special Service Bureau
